Created in 1888 and re-launched in 1996, Damier canvas is as irresistible as ever! Damier handbags are both feminine and functional. The Ipanema urban handbags (pictured below) feature an ebony leather strap that makes it easy to sling the bag across your shoulder; while the outer patch pocket with leather braiding turns the spotlight on the bag's geometric design. Ipanema handbags are ideal for discreetly carrying all of your important papers and other items. These elegant handbags adapt well to every situation!
